

# Ski Jumping Pairs

## Road to TORINO 2006

General Director Riichiro Mashima Director Masaki Kobayashi

### What is Ski Jumping Pairs?

"Ski Jumping Pairs" is an incredible form of new Ski Jumping event where two jumpers share a pair of skis. Ski Jumping Pairs became the official competition for the 2006 TORINO Olympigs. What?! Unbelievable?! Yes, this is only a CG parody competition; truly imaginary sport made by Riichiro Mashima. These hilarious & ridiculous jumps have drawn the nation's attention, and made an incredible record in DVD sales.

### A documentary comedy movie that's more hilarious than Woody Allen's "Zelig!"

The bizarre ski jumps have drawn the nation's attention. This movie will cover the story behind the origin of this competition in a documentary touch... well, rather a comedy movie.

Ski Jumping Pairs will become the official event for the TORINO Olympigs 2006... but the road to this competition was incredibly long and abrupt. A PAIR of ski jumpers flying ONLY on ONE PAIR of skis... Doctor of Physics in Hokkaido, Toshifumi Harada, is the man who challenged in this ridiculous dream. This competition originated from his miracle discovery - soon his sons and ski jumpers worldwide were drawn into his amazing world. This is a faked documentary movie of the story behind the challenges and distress of the people drawn in the origin of Ski Jumping Pairs.

2005 / Japanese Film / 35mm / Color / 82min.
